

## Usage Guidelines

### Pond Treatment

- Add 2 to 4 lbs every 1 to 2 weeks depending on condition of pond per 1 acre surface volume

### Water Gardens

- Add 2 to 4 oz per 1000 gallons volume in the water garden
- Add dosage every 1 to 2 weeks depending on condition of pond

Water-soluble packets are the best dosing mechanism

### Animal Manure Pits

- Small to medium size pits add 3 – 5 lbs weekly
- Large size pits add 5 – 10 lbs weekly
- High volume manure pits add 10 – 15 lbs weekly
- Add 1 lb of Remedipro to 50 gallons of water and pour the entire volume down the drain lines to wash the waste into the pit. This will help clean and deodorize the lines and seed the manure pits.
